TACTICAL, MOBILE AND INTEGRATED SOLUTIONS  
COMPATIBLE WITH HIGH INTENSITY OPERATIONS

## PERFORMANCE IN HIGH INTENSITY'S SERVICE

### SPEED

Our solutions combine speed of deployment and redeployment. They allow you to be operational in a few minutes, without tools and on the most complex fields. Our goal is to limit your implementation time so that your units can **meet your objectives**.

### TURNKEY SOLUTIONS

Our expertise and R&D department enable you to benefit of 100% tailor-made solutions to meet all of your needs, even the most complex ones.

## INNOVATION

### INTEGRATION

We integrate the complete equipment that you need for your mission. We design our systems to suit **your specific needs** (Army Medical Services (AMS), NBC, logistics, etc.).

### INTERCONNECTION

Our systems are designed for **full interoperability** with each other and with other Armed Forces equipments.

### MOBILITY

Our tactical solutions are fully compatible with all logistic systems on the market including DROPS and PPLOG\*. Capable of land, sea and air transport with optimised weight and robust design meeting the most demanding NATO standards guaranteeing you **the greatest possible mobility while limiting your logistic footprint**.

\*(Multi-Purpose Logistic Carrier)

### MODULARITY

The interior partition walls are very easily modulated and allow **multiple possibilities** of arrangement, use and functionality.

## TACTICAL SOLUTIONS COVERING THE ENTIRE THE BATTLEFIELD

From the rear to the front, we innovate to design integrated, mobile, lightweight solutions, essential to support **High Intensity combat**.

**UTILIS** is the recognised world leader in deployable infrastructure and the preferred partner of many armies.

**YOU** must have been protected in your tactical deployment with equipment provided by UTILIS.

### UTILIS

Since 1997, UTILIS has been a leader in its domain, demonstrating every year its ability to innovate in close collaboration with the armed forces to design semi-permanent and permanent tactical solutions for camps, Command Posts, tactical hangars, collective protection, decontamination and hospitals, in the military sector as well as in civil security and NGOs.

Our systems are designed and manufactured entirely in Europe and guarantee you real **strategic autonomy**.

### SECTORS

- Tactical systems and equipment
- Camps / Living areas
- CBRN decontamination / Colpro
- Hangars
- Field hospitals

### CERTIFICATIONS

- ISO 9001 and 14001 certified.
- All product ranges certified by independent agencies.
- Wind and snow load tested products.

25+ YEARS EXPERIENCE

50+ COUNTRIES

9 INTERNATIONAL SUBSIDIARIES

### CUSTOMERS

### PATENTED TECHNOLOGIES

Our technologies are entirely designed and developed in house and are fully patented. This guarantees unique and inimitable products.

- TMS
- MAG
- TXL
- ELYTRON™

### PARTNERSHIPS

# OUR DRIVING FORCE : INNOVATION

## 1 BASED ON YOUR PROJECT

Our solutions are adaptable to your needs and professional constraints. We are able to support you from the design of your project's specifications.

Thanks to our expertise, we are involved in many major projects and development programs and we work with a many partners across the world.

### DESIGN OFFICE AND R&D

## 2 BASED ON OUR FIELD ANALYSIS

We attach great importance to feedback on the use of our equipment and solutions in all theatres of operation. Our close links with our customers enable us to design systems that fully meet their requirements and constraints across all terrains.

## Tomorrow's unmissable innovations designed for High Intensity

Designed for High Intensity, the multi-purpose deployable container is able to respond to

### ALL YOUR NEEDS

NEW CONCEPT

# ELYTRON™

► Increase your tactical mobility.

Limit your logistic footprint. ◀

**The latest advanced technology for mobile multipurpose units**, with an implementation time unequalled on the market, ELYTRON™ offers you a flat surface that can accommodate numerous pieces of equipment. Transportable on many vehicle types allowing you to **better mesh the battlefield.**
