

SPECIALIST IN SECURING MAJOR EVENTS

PROVIDING THE MEANS TO ANTICIPATE AND REACT

Whether they are major cultural, sporting or popular events, UTILIS supports all those involved in Civil Protection by providing all the equipment needed to protect and care for these mass gatherings. We support all emergency response units in anticipating needs in the face of ongoing terrorist threats and CBRN risks. Throughout the year, we provide training in the use of our tactical solutions to ensure that your teams have optimum capacity for action and reaction.

DECONCUBE

DECONROAD

Our latest innovation, the **DECONROAD**, offers unrivalled projection capacity. More agile, it allows you to pre-position yourself as close as possible to areas at risk, while offering rapid reversibility so you can reproject to another site in record time. Along with the **DECONCUBE** and **DECONTRAIL**, the **DECONROAD** completes the REZISTEMA™ Range, and proves **UTILIS'** leadership in integrated CBRN crisis management solutions.

100% MADE-TO-MEASURE AND INTERCONNECTABLE

When you choose UTILIS equipment, you are choosing a solution that perfectly meets your needs. More than just a shelter or an emergency vehicle, our interconnectable products incorporate all the accessories needed to help rescue workers carry out their mission in the best possible conditions (lighting, energy generators, pumping systems, water storage and potabilisation, electricity, heating, air conditioning, medical equipment, negative pressure, etc.). Every response is unique, and every need feeds our thinking to ensure constant

INNOVATION.

## MOBILITY AND SPEED TO RESPOND IN ANY CRISIS

Because of the demands of flow management, UTILIS innovates on a daily basis to provide integrated mobile solutions, solutions that are essential during health, technological or security crises.

### EMERGENCY ASSISTANCE

UTILIS is proud to provide integrated mobile solutions designed for rapid deployment in emergency situations. Civil protection actors need to be able to act quickly, without wasting precious time. **Our tents and equipment are designed to be ready for use in a matter of minutes, without tools, and with just 2 or 3 operators.**

### COMMAND

In an emergency, the priority is to organise help. **Our tents can be deployed in a matter of minutes to set up a crisis centre that is sized and adapted to the needs of even the most demanding terrain.**

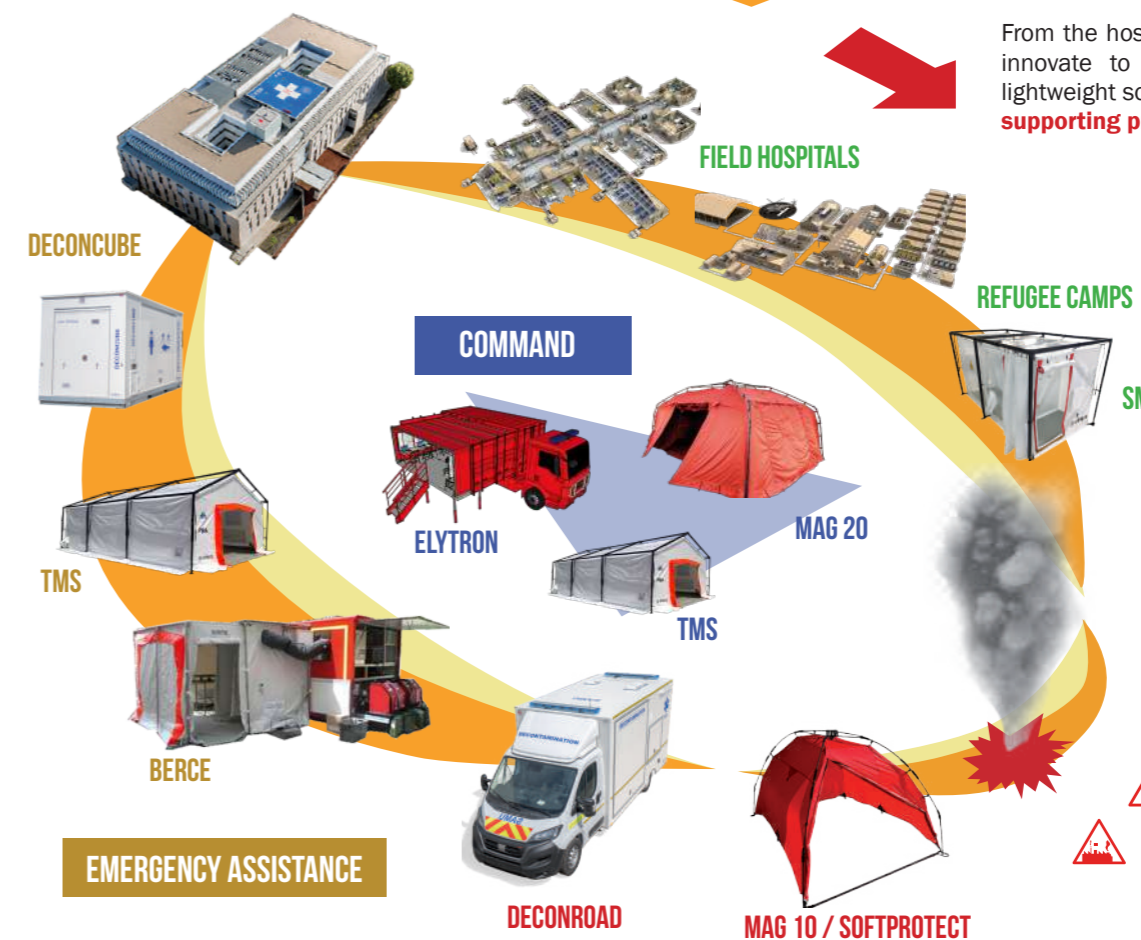

### POPULATION SUPPORT

Whether responding to natural or industrial disasters, major accidents or medical emergencies, **our tents and integrated equipment offer exceptional flexibility.** They can be used as advanced medical posts, temporary shelters or aid distribution points, adapting perfectly to each scenario.

### LOSS

The diversity of disasters has led us to develop equipment that enables first-aiders to be as agile as possible. Our equipment can be adapted to any situation: indoors or outdoors, in the city or on isolated land, with or without the risk of spreading. **Benefit from complete protection, insulation and decontamination solutions that can be deployed on site.**

## EMERGENCY SOLUTIONS CLOSE TO VICTIMS AND VICTIMS OF DISASTER

From the hospital to the disaster site, we innovate to design integrated, mobile, lightweight solutions that are essential for **supporting protection forces.**

### TURNKEY SOLUTION & MADE-TO-MEASURE

Our expertise and our design office enable you to benefit from **100% made-to-measure solutions** capable of meeting all your requirements, including the most complex.

**UTILIS is the world leader recognised for its expertise and the preferred partner Civil Protection services.**

**YOU are the specialists recognised for your expertise and the privileged partners of our innovation.**

### UTILIS

The UTILIS story began in 1997 with the design of an ultra-rapid deployment tent for firefighters. Its unique feature: an exposed metal-textile structure. A true innovation and revolution in the history of civil and military tents. Since then, UTILIS has become a **leader** in its field, demonstrating every year its **ability to innovate** in the development of tactical solutions for PCs, camps, collective protection, decontamination and hospitals, in the military, civil security and NGO sectors.

Our systems are designed and manufactured entirely in France.

### AREAS

- Individual or mass shelters
- Camps / Living areas
- CBRN decontamination /
- Field hospitals
